

Hello World!

Enter 1st number: 20  
Enter 2nd number: 30  
The sum is : 50

Values of variable before swapping is 10 and 30  
Values of variable after swapping is 30 and 10

Enter your desired character: a  
The ASCII value of a is 97

Enter your desired number: 35  
Odd number

Enter your desired temperature in fahrenheit: 100  
Temperature in Celsius is: 37.7778

Enter value of principle: 5000000  
Enter value of time(in years): 5  
Enter value of rate: 7.5  
The value of simple interest is: 1750000

Enter first number: 67  
Enter second number: 65  
67 is greater

Enter the radius of circle: 7  
Enter the side of square: 6  
Area of circle is: 153.860001  
Area of square is: 36

Enter your desired number: 75  
The number is odd

Enter value of 1st number: 10  
Enter value of 2nd number: 20  
Enter value of 3rd number: 30  
30 is greatest
